Form New Residents' Association

A master plan for the area will be outlined and discussed at the general meeting of the newly formed South Torrance Civic Improvement Association Monday at 7:30 p.m. in the Howard Wood School, Arlington Ave. and 235th St. President Hal La Mour, said that the group was organized as a result of a fight by residents to correct errors in the \$92,000 South Torrance Sewer District No. 3.

"Purpose of the organization is to develop and improve the long-neglected area, which has been so aptly and caustically described by old timers as 'No Man's Land,'" La Mour said.

He said that the master plan will bring about badly needed

College Projects Funded by Bonds

Preliminary plans are under way for the construction of a new physics building on the Harbor College campus, according to Hazel M. Whedon, Dean of Administration.

The building, made possible by voter's approval of school bonds in the last election, will be ready for use by Sept. 1960. It will be built west of the science wing of the present administration building and will contain four physics laboratories, a large lecture hall, offices, and storage space.

Other projects, also made possible by the passage of school bonds, include the improvement

of present science laboratories; the moving onto the campus for use by Sept. 1959, of a temporary building for dramatics, art, and other classes; and the addition of a sidewalk, street, and parking lot south of the football field. Resurfacing of existing campus parking lots was completed during the summer.

Aid for Widowers

A helpless widow of a woman veteran may now be eligible for Veterans Administration benefits based on the death of his wife, VA announced.

Until the recent enactment of Public Law 85-655, the widow of a woman veteran was not eligible to receive VA benefits as a result of his wife's service, the agency said.

Carson Flood Project Aided

Residents of the Carson district, accustomed to finding Victoria St. between Main St. and Avalon Blvd. flooded during even-moderate rains, were informed by Supervisor Burton W. Chace today that at least 75 per cent of their problem has been solved.

Chace disclosed that the County Road Department, this week, will complete installation of a large metal arch culvert pipe having five times the capacity of the previous pipe to carry storm waters under Victoria at this point.
